

WANGFOONG TRANSPORTATION LIMITED

Our Company

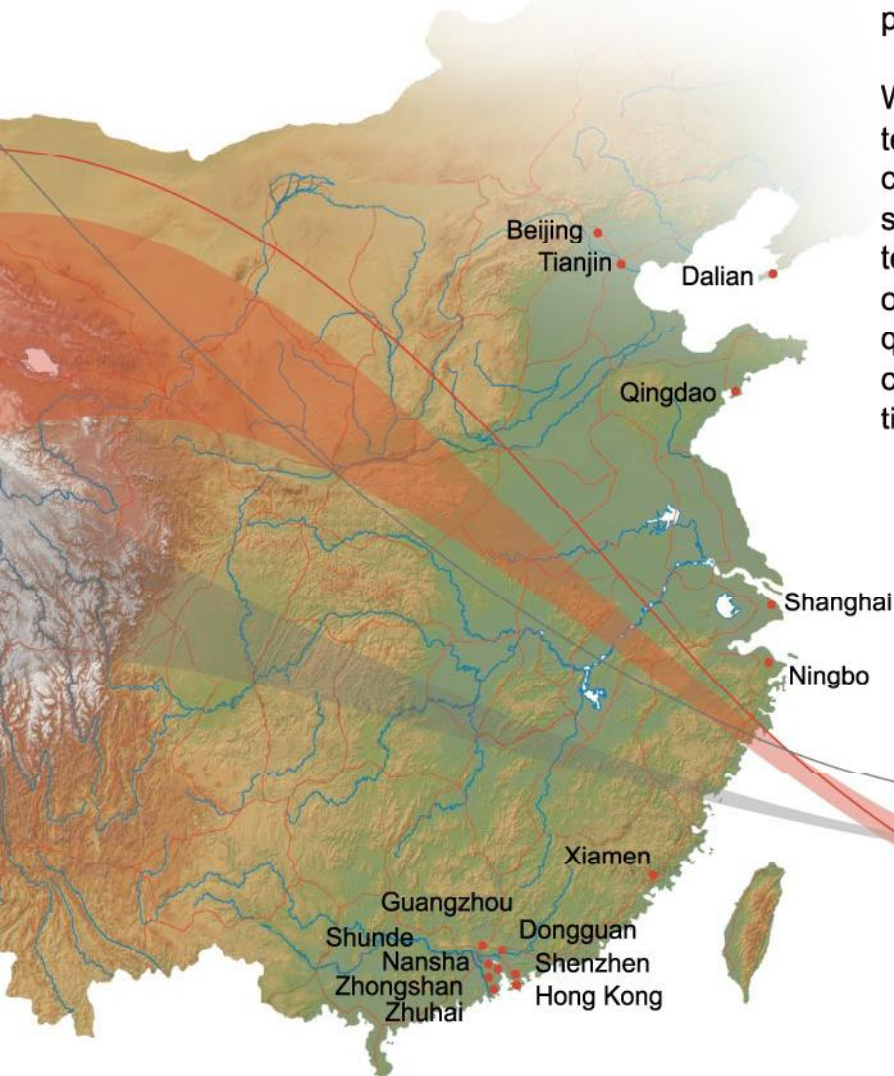

Wangfoong Transportation Ltd. was jointly established in 1980 by the Wang Tak Group and the Hongkong and Shanghai Banking Corporation Limited. It became a wholly owned subsidiary of the Wang Tak Group in 1987. We have since dedicated ourselves to become one of the best multimodal transport and logistics companies through total commitment to achieving customer satisfaction.

WANGFOONG began by providing feeder services between Hong Kong and the Pearl River Delta ports and project cargo from overseas to China, today we have maintained a strong presence in the area. Our air and sea transportation integrated with our warehouse and distribution services give our customers a competitive advantage on inventory management and a lower supply chain costs.

WANGFOONG also recognizes the importance of staff development and provides continuous training to ensure our people is well equipped with latest industry know-how. We believe it is the people that make the difference. Our knowledge and experience accumulated over the years make us experts in this industry, serving our customers with professionalism and integrity.

WANGFOONG believes in leveraging technology to create values for our customers. With our in-house developed systems supported by our development and technical teams, we are able to achieve better operation efficiency, maintaining service and quality consistency and hence benefiting our customers with cost reduction and share of time sensitive information accurately.

Liner Services

WANGFOONG is one of the pioneers in the operation of feeder services between Hong Kong and the Pearl River Delta. We operate with our own fleet of vessels to ensure the top of quality is achieved. We handle general purpose containers, reefer containers as well as break bulk cargoes. Our services have been recognized as reliable and professional, enabling us to win the trust and support of our customers worldwide. We are flexible to meet the requirements of different customers without sacrificing our high quality standard.

WANGFOONG continues to strengthen and expand the coverage of its services. It became a member of the South China Common Feeder Alliance and was awarded the right to operate between domestic ports in PRD.

Container Haulage and Terminal Services

To provide a one stop service to customers, WANGFOONG also manages its fleet of tractors to provide door services both in Hong Kong and Guangdong province. Our container depots in mainland China and Hong Kong facilitates the need for vanning, devanning, transloading, storage and container repair.

WANGFOONG is also committed to implementing technology solutions to achieve operation efficiency, reducing human errors and ensuring information accuracy and timeliness. Our in-house developed LINER System facilitates our daily management of bookings, documentation, invoicing, container movement, cargo tracking, and so forth.

International Freight Forwarding

WANGFOONG has positioned itself as a global freight forwarder serving our worldwide customers through effective partnership with our worldwide agents. Our team of experience staff is dedicated to deliver personalized service and innovative solutions to meet the unique requirements of each customer. With our in-house developed Freight Forwarding System, we are able to provide timely and accurate information making shipments easy to track and trace.

Air Freight

WANGFOONG is certified as IATA agent and Regulated Agent by the Civil Aviation Department of the HKSAR. We offer comprehensive air export and import solutions to and from all key trading and manufacturing centers worldwide. Our services include:

- Door to Door / Airport to Door / Door to Airport / Airport to Airport;
- Choices of airlines to suit different time and cost requirements;
- Direct airfreight utilizing reliable airlines;
- Consolidated airfreight with the flexibility of direct and deferred service to meet an on-time delivery request;
- E-booking;
- Charter services, both full and split charter capabilities;
- Special handling requirements such as dangerous goods, livestock and perishable shipments;
- Preparation of all related documents in compliance with local import and export regulation;
- Easily combined with other services such as ocean freight, warehouse and logistics.

Ocean Freight

WANGFOONG is an approved FMC-Bonded NVOCC and able to transmit the Bill of Lading to U.S. Customs directly. We provide comprehensive sea import and export services to and from all key trading and manufacturing centers worldwide. Our services include:

- Transportation of LCL and FCL shipments;
- Door to Door / Port to Door / Door to Port / Port to Port;
- Cargo consolidation/deconsolidation;
- Positioning of container equipment to the right location at the right time;
- Loading and devanning of the containers;
- Handling of reefer and other special equipment requirements;
- Preparation of all related documents compliant with the local import and export regulations;
- E-booking;
- Easily combined with other services such as air freight, land transportation and warehouse and logistics.

Sea / Air

The Sea/Air service is a combined transportation mode of low cost seafreight and fast airfreight. Shipments are transported from Asia to hub airports in the Middle East by sea, and airfreighted to the European airport at the final destination.

Supply Chain Management

WANGFOONG provides flexible, value-added logistics services, seamlessly integrating the entire supply chain management process from suppliers, manufactures, distributors, retailers, to end customers. Our services include:

Warehousing & Streamlined Distribution Solution

WANGFOONG Warehousing is committed to minimizing costs and cycle time for our customers across the entire logistics and transportation spectrum, using our renowned expertise gained through years of experience in the China and global markets.

Web-Enabled & Bar Code Warehouse System

WANGFOONG's state-of-the-art web-enabled services allow customers and strategic alliance partners to access our system, offering real-time information about the status of goods at all stages in the supply chain. Sophisticated warehousing management system, with bar-coding and hand held data terminals, are equipped to improve inventory management and transportation efficiency, and to facilitate efficient cargo handling and consolidation.

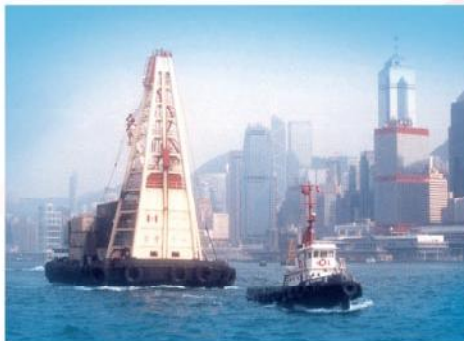

Project Cargo Services

Since the company's establishment in 1980, WANGFOONG has built an excellent record in providing project cargo services, not only in Hong Kong but also in mainland China and overseas. Our services include:

- Early Transportation Planning
- Route Surveys
- Marine Surveys
- Technical Support
- Heavy Lifts & Over-dimensional Cargo
- Consolidation, Packing, Containerization
- Full & Partial Charters (Air & Ocean)
- Cargo Loading, Discharge and Transit Supervision
- Site Delivery

Tug and Barge Chartering

Our fleet of modern tugs and barges are specially designated for chartering by land and marine construction companies, including public, private, and ad hoc groups.

In fact, we are proud to be engaged in nearly all prominent projects in Hong Kong that involve marine works, such as the power cable laying in Ma Wan, site investigation in Tin Shui Wai and marine project in Hong Kong International Airport. Our tugs and barges are available for long-term and short term chartering.

China Subsidiaries

WANGFOONG had anticipated the growth of China trade and had made an early entrance to China as an international forwarder. Guangzhou Wangfoong International Forwarding & Agency Ltd., established in 2001, is a wholly owned subsidiary of Wangfoong. The company also licensed as an NVOCC by the Ministry of Communications in China in 2002.

Guangzhou Wangfoong supports our China related shipments for both air and sea, freight collection and settlement as well as customs clearance and declaration.
